

The Psychology of Safety for Safety Advisers

The Psychology of Safety for Safety Advisers

UNDERSTANDING THE PSYCHOLOGICAL PRINCIPLES BEHIND SAFETY

Safety is a Way of Thinking

Psychology applied to safety is a major growth field in high risk industries. Safety professionals may have found they have missed out or need more development within this critical area.

This workshop is targeted at safety advisers to provide them with an understanding of the psychological principles behind behaviour change and improvement from an individual to a cultural level.

The PSB Solutions' 'Psychology of Safety for Safety Advisers' workshop is designed for those organisations and individuals aiming to:

- Understand what situational awareness is and how to improve it.
- Understand safety culture and how to improve it.
- Understand how safety leadership affects culture.
- Effectively utilise Behaviour Based Safety programs.
- Understand and overcome those challenges unique to safety professionals.
- Understand their role as an organisational leader.
- Improve their communication style.

Key Objectives

The key learning outcomes of the two day program are to provide safety advisers with a greater understanding of:

- Situational Awareness.
- Safety culture and safety climate.
- Leadership models and strategies in safety.
- Behaviour Based Safety.
- Delivering effective feedback.
- Communication as a safety leader.
- How to manage difficult and resistant individuals.

Audience

This course is ideal for safety advisers and anyone wanting to further understand the psychology behind safety. A separate course exists for safety managers.

The Process

This course is run over two consecutive days and contains lecture material, group and individual activities.
